Summary

Computer Science graduate focused on DevOps, Cloud Infrastructure, and Automation, with hands-on internship experience in Terraform, Jenkins, Docker, Linux, CI/CD, and AWS. Experienced in building automated infrastructure, troubleshooting server environments, and developing data-driven applications. Strong interest in scalable infrastructure, deployment automation, reliability, and cloud-native technologies.

Technical Skills

Cloud & Hosting: AWS (EC2, S3, Elastic Beanstalk), GCP, Hostinger
DevOps & Infrastructure: Terraform, Jenkins, Docker, Docker Compose, CI/CD, Bash, Git
Programming & Web: Python, Java, SQL, Solidity, React.js, Flask, HTML/CSS
Data & Machine Learning: Pandas, NumPy, Scikit-learn, TF-IDF, NLP, EDA
Blockchain: Ethereum, Hardhat, Smart Contracts, dApps
Operating Systems: Ubuntu Linux, Kali Linux, Windows(EFI/GRUB Management)

Professional Experience

Burj Tech Consultancy Jan 2026 – Mar 2026
DevOps Intern Tiruvallur, India
– Automated cloud infrastructure provisioning using **Terraform** and supported continuous integration and deployment workflows through **Jenkins**.
– Containerized and orchestrated application environments using **Docker Compose** while performing Ubuntu server and kernel optimization.
– Performed root-cause analysis and infrastructure troubleshooting to improve system reliability and reduce deployment-related issues.

Rasa AI Labs Jun 2025 – Jul 2025
Data Science & AI Intern Chennai, India
– Worked with scalable deployment environments for real-time AI applications and supported infrastructure performance optimization for data-processing workloads.

Remark Skill Education – IIT Hyderabad Apr 2025 – May 2025
Data Science Intern Remote
– Developed automated Python data-extraction and preprocessing workflows and built machine-learning classifiers using Scikit-learn.

Projects

SmartPanchayat – Blockchain Governance dApp | *React.js, Java, Solidity, Hardhat* May 2026
– Developed a decentralized governance platform using React.js and Java backend integration for transparent digital governance and fund tracking.
– Implemented blockchain-based smart contracts with **Solidity** and deployed and tested contracts using **Hardhat**.

Fake News Data Processing & Classification Pipeline | *Python, MySQL, Pandas, Scikit-learn, TF-IDF* 2026
– Built an end-to-end **ETL and ML pipeline** processing **44,898** raw news records through extraction, validation, transformation, MySQL loading, EDA, feature engineering, and classification.
– Cleaned the dataset to **44,058 records** by removing **209 duplicates** and **631 empty rows**, achieving **99.1% ETL accuracy**.
– Engineered text features using **TF-IDF** and trained Logistic Regression, Decision Tree, Random Forest, and Gradient Boosting models using an **80/20** train-test split.

Genious Shoppy – AI E-commerce Analytics | *Python, XAI, RFM Analysis* Jul 2025
– Applied RFM analysis and **SHAP/LIME** explainable AI techniques to support customer segmentation and interpretable business analytics.

Scalable E-Commerce Web Application | *AWS, Flask, MySQL, Python* Apr 2025
– Developed a Flask and MySQL e-commerce application and integrated **AWS S3** for scalable static asset and image storage.

Education

Sriram Engineering College May 2026
Bachelor of Engineering in Computer Science; CGPA: 80% Perumalpattu, Tamil Nadu
Govt. Boys Hr. Sec. School 2022
Higher Secondary Certificate; Score: 62.6% Perambakkam, Tamil Nadu
St. Joseph's Boys Hr. Sec. School 2020
Secondary School Leaving Certificate; Score: 88.6% Keelacherry, Tamil Nadu

Additional Information

Languages: English (Professional), Tamil (Native) | **Strengths:** Troubleshooting, Leadership, Critical Thinking, Team Collaboration
